

Tverrfaglig kontroll på HABU

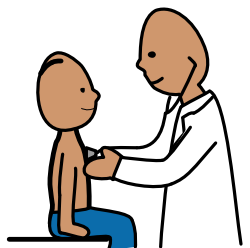

Når du kommer til oss møter du hyggelige voksne som vil passe på at du har det bra

Vi vil snakke med deg og de som er sammen med deg. Hvis du vil kan du snakke alene med en av oss.

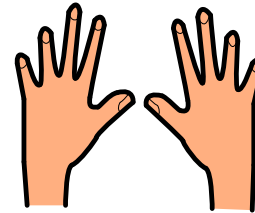

Du kan leke, tegne eller se i en bok

Legen vil lytte på hjertet ditt, kjenne på mage, armer og beina.

Vi vil se når du beveger deg, som når du går, løper, hopper og går i trapp.

Vi vil se når du bruker hendene dine, når du bygger, tegner eller gjør andre ting.

Du kan spørre om alt du lurer på

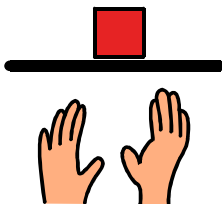

Når du er ferdig vil du få en liten premie.
